CRITICAL ISSUES (critical, high severity): 0

Critical and harmful access for owners, user block ability, Bugs, and vulnerabilities that enable theft of funds, lock access to funds without possibility to restore it or lead to any other loss of funds to be transferred to any party.

ERRORS, BUGS AND WARNINGS (medium, low severity): 0

Bugs can negatively affect the usability of a program, errors that can trigger a contract failure, Lack of necessary security precautions, other warnings for owners and users, warning codes that are valid code but the compiler thinks are suspicious.

OPTIMIZATION (low severity): 1

Methods to decrease the cost of transactions in Smart-Contract.

RECOMMENDATIONS (very low severity): 0

Hint and tips to improve contract functionality and trustworthiness.

Conclusion:

In the **CAKEFUNDS** Smart-Contract were found no vulnerabilities, no backdoors, and no scam scripts.

The code was tested with compatible compilers and simulate manually reviewed for all commonly known and specific vulnerabilities.

So **CAKEFUNDS** Smart-Contract is safe for use in the Binance Smart Chain main network.

Optimization suggestions

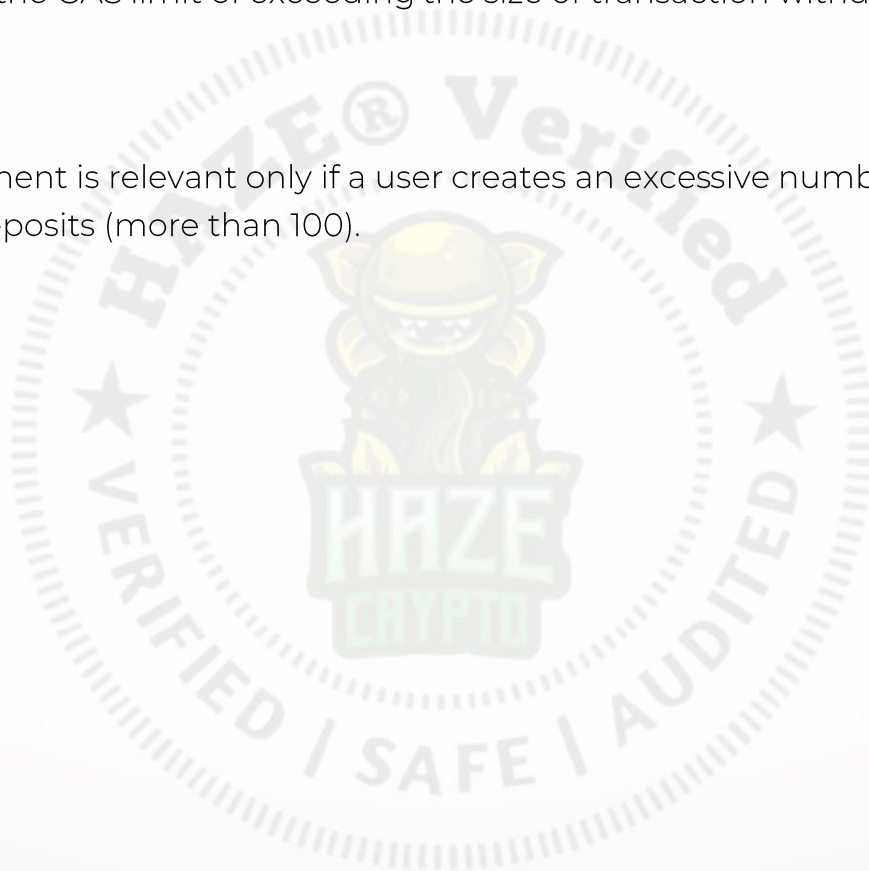

1- Loop on the dynamic variable (low severity).

If the user gets more parallel deposits his withdrawal transaction fee will cost more transaction fees because the loop on the dynamic variable is used in the 'withdraw' function.

In case of the GAS limit of exceeding the size of transaction withdraw is not possible.

Note:

This comment is relevant only if a user creates an excessive number of parallel deposits (more than 100).

Independent description of the smart-contract functionality

The **CAKEFUNDS** smart-contract provides the opportunity to invest any amount in CakeToken (from 1 Cake) in the contract and get 365% return on investment in 365 days if the contract balance has enough funds for payment.

- ❖ Dividends are paid from deposits of users.
- ❖ All dividends are calculated at the moment of request and available for withdrawal only once a day.
- ❖ Each subsequent Deposit is kept separately in the contract, in order to maintain the payment amount for each Deposit.

Launch Date: Sat May 15 2021 19:00:00 GMT+0000

Contract Owners Fee

Project Fee: 2% on invest

Marketing Fee: 5% on invest

Fund Fee: 3% on invest

Compound Fee: 5% on re-invest (compound)

INVESTMENT PLAN

Plans	Total Return	Daily Profit	Days	Withdraw time
1	365%	1%	365	Only Once a Day

- Minimum deposit amount is 1 Cake
- Plan's time and profit is float and change daily

Float Plans

After launch each day plan duration and profit will change

- Daily profit of plans will increase 0.001% daily
- Duration of plans will decrease 0.2 day daily and it will be decreased to the minimum 4 day

Referral System (Match Bonus)

The contract pays 8% referral commission over 3 levels

- Level one: 5%
- Level two: 2.5%
- Level three: 0.5%

Notes:

- Referral should be an active user; it means referral address has at least one deposit
- Referrer is specified once at the time of the first deposit and is assigned to the user without the possibility of changing. From each subsequent Deposit, the referrer will get his percent.
- If a user has not a valid referrer, **owner** will be set as upline.

Referral Bonus

Users can increase their daily profit of new deposit with direct referrals

- ❖ Each 100 direct referral will increase daily profit by 0.1%

Compound (Reinvest)

Users can reinvest their dividends and make a new deposit

- ❖ Users can only withdraw or reinvest only once a day

Disclaimer:

This audit is only to the Smart-Contract code at the specified address.

Haze Security is a 3rd party auditing company who works on audits based on client requests. And as a professional auditing firm, we check on the contract for any vulnerabilities, backdoors, and/or scam scripts.

Therefore:

We are not financial advisors nor do we partner with the contract owners

Operations and website administration is fully on the client's side

We do not have influence over client operations, which can lead to website changes, withdrawal function closes, etc. One always has the option to do this through the contract.

Any concerns about the project themselves need to be raised directly to the project owners and not through Haze Security.

Investors are not in any way obliged, coerced or influenced to invest in projects audited by Haze Security.

We are not responsible for your funds or guarantee you profits.

We highly recommend that investors do their own research and gain crypto experience before investing

To report any scam, malpractices and irregularities, please send a message via Telegram to @Haze013 or @Sara_Solidity for blacklisting.
